### WILL ORGANIZE MOTHERS' CLUB

Women of Kaley School District Get Together Next Thursday Night.

A society to be known as Mothers' club is to be organized next Thursday evening in the supervisor's office of the Kaley school. The club is to be similar to the Parents-Teachers' club, which has done so much during the past few years for the education of the parents and children, has established a stronger feeling of interest between parent and child and the teacher and has afforded them a social and education evening once a month.

A number of representative women were present at a preliminary meeting held Thursday evening for the purpose of discussing the organization. Mrs. O. E. Gelbrich presided at this meeting and she, along with other women who are active workers for civic welfare, are encouraging the success of the undertaking.

It is their intention to work in co-operation with the new Kaley playground director and also to give the foreign mothers of that district an opportunity to interest themselves and to take a part in the civic movement to which so many of the prominent club women are devoting their time and services. Feeling the need of something more for the foreign women than their domestic duties, this society will offer them every opportunity to share in the work.

Modern Woodmen of America Plan Big Day for Aug. 1 at Zimmer Grove.

Battalion field day of the Modern Woodmen of America to be held Aug. 1 at Zimmer grove, which is located at Station 11 on the Northern Indiana near Osceola, will be the biggest day of the Modern Woodmen during the year, if the plans that have been arranged are carried out.

Final arrangements were made last night at the regular meeting of Washington camp, No. 6675, at W. O. W. hall. Representatives of Colfax camp, No. 3395, present to aid in the completion of the plans were Lewis Crepps, council; William Clarmont, chief forester; and Walter Butler, chief forester of the Pelton Mishawaka camp.

The affair will be featured by a seven-team contest which will be composed of drill teams from seven of the camps that will be present. The camps that will be represented at the affair are Syracuse, Elkhart, Goshen, Mishawaka, Niles, Michigan City, Laporte, Buchanan, New Carlisle and two camps from South Bend. Special cars will leave each city at 8 o'clock. It is expected that at least 2,000 Modern Woodmen and their friends will attend the annual field day. A spelling contest is scheduled to be held between the various camps and prizes ranging from \$50 down will be awarded the winners.

The committee in charge of the day from the Washington camp is composed of C. Christ, William Juday, chairman, and William Gilson. This committee will act with committees from the other camps in the preparation of the day's program.

### WHAT BRADSTREET'S WILL SAY TODAY

NEW YORK, July 24.—Bradstreet's Saturday report says:

"Growing activity in industrial quarters turning out metals and their products, prospects of big crops, optimistic sentiments as to the future and better collections, contrast with mid-summer quiet in the larger merchandising lines, unrest in labor circles, some conservatism generated by international political matters, and quite slow buying for fall account.

"While warmer weather has helped retail trade, the season has been so belated as to necessitate sharp cuts in prices, but on the other hand, stocks carried over from last fall are light, and everywhere the influences of good crops, with marked improvement in employment, are expected to cause buying to spread.

"It is too early for house trade, but many centers are preparing for the visits of interior merchants, and in the meantime salesmen are working for fall orders.

"Further betterment is reflected in finished steel, pigiron, late to fall in line, is firmer; everything in the nature of war supplies is exceptionally active, and numerous plants not hitherto engaged in making munitions are being converted to that purpose.

"At the same time labor disturbances, all of them based upon a desire for higher wages, shorter day's work, are more in evidence and the general disposition seems to favor granting of the concessions requested. "Even lumber is looking up, foreign demand for hardwoods being good, and better shipping facilities were available, this trade would show noteworthy growth.

"Money is in somewhat better demand, requirements for crop moving purposes are readily met, and even the south looks forward with equanimity to the season for shipping cotton.

"In the southwest wheat growers are inclined to market their grain in a conservative way, so as to reap the advantages to be obtained from remunerative prices. Commercial paper sells freely in the west and bank clearing for the country as a whole excel those for one and two years ago.

"Stock market prices, dominated in the forefront of the week by further advances in the so-called war order stocks, receded slightly later, chiefly on realizing ascribed to the forwarding of the American note to Germany."

Goods on Approval

There are certain classes of goods that are not practical to be sent out on approval, provided the store wants to do the best it can by all of its customers.

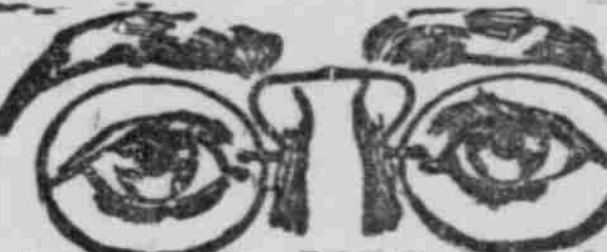

For instance, fine waists come in from the manufacturer. To send them out on approval means a "delivery" and a "call." It means the waists out of stock that other customers might want. It means the return—perhaps—in many cases, of the waists in an unsalable condition.

The expense of all the above needs to be added to the price of the waists, even to those who do not wish to take waists on approval. Selling the waists in the store (fitting same to the customer if any fitting is required) enables us to sell them at a lower price and have a better stock on hand than when waists are sent on approval.

We cannot do it both ways—for that reason when a salesperson politely says that waists or similar goods "are not sent on approval" you may be sure that the best interests of the customer and the store have been considered.
